

# *Mrs. Dorothy Helms*

---

Dear Friend,

I am writing to ask you a favor. I hope that you will please support David Rouzer in his campaign for the North Carolina Senate.

I do not usually get involved in political races other than our own, but this is a very special exception. David worked in Washington with Jesse for almost a decade, and once you get to know David you will understand why Jesse and I feel the way we do. He is a smart, hard-working gentleman who has an excellent reputation for getting things done. I am delighted that David is running for the State Senate.

David's farm background and education prepared him well for his work with Jesse in the U.S. Senate. He worked for twelve summers on his family's farm in Johnston County and had his own tobacco crop. In fact, he saved the money his tobacco brought at market to pay for his education at N.C. State where he received three degrees: Agricultural Business Management, Agricultural Economics, and Chemistry.

David has put that experience to good use, playing a vital role in achieving the tobacco buyout for our farm families and the many businesses across the state that rely on the production of tobacco. He has been a key supporter and advocate for agriculture and North Carolina in Washington and has been well-recognized for his good work on many issues.

Equally important, David understands what Jesse calls the "miracle of America." He understands the principles on which America was founded. He knows these principles must survive, and he feels a deep sense of obligation to do his part to ensure that they do.

Though David's accomplishments and knowledge are impressive, it is his strength of character that Jesse and I have always admired most. You will find him to be a committed Christian who will stand firm for North Carolina values.

I hope you will have an opportunity to meet David personally during the campaign. I know that you will be impressed and that you will agree his background, knowledge and energy will serve North Carolina well.

So please join me in supporting David in his campaign for the North Carolina Senate. Let us hear from you today and make an investment in a strong future for North Carolina. Not only will David need your generous financial support, but he will need you to say a good word to your friends and support him with your name and in other ways.

I will be most grateful for your help.

Warmest personal regards,

*Dorothy C. Helms*
